

# Atoms, Molecules, Elements, Compounds

**Author:** deepti s

**Illustrator:** deepti s

Level 3

Dalton called it 'an atom' thinking it was indivisible,  
But its positive nucleus and negative electrons  
make its charge neutral.

Elements form when atoms of only one family  
gather,

Compounds form when atoms of different families  
get together.

Just like cakes, bread and laddoos are made of little  
crumbs,

Everything in this universe - even you- are made of  
tiny atoms!

# **Atoms, Molecules, Elements, Compounds**

(English)

Fundamental concepts such as an atom, a molecule, an element and a compound are expressed and explained poetically.

This is a Level 3 book for children who are ready to read on their own.

Pratham Books goes digital to weave a whole new chapter in the realm of multilingual children's stories. Knitting together children, authors, illustrators and publishers. Folding in teachers, and translators. To create a rich fabric of openly licensed multilingual stories for the children of India and the world. Our unique online platform, StoryWeaver, is a playground where children, parents, teachers and librarians can get creative. Come, start weaving today, and help us get a book in every child's hand!
